

Brief preliminary information about the European or World Hunter Field Target Championships 2019 in Grupont (Belgium)

Dear WHFTO-members,

The Benelux announces its candidacy to host the European or World Hunter Field Target Championships in 2019 in Grupont at „La Ferme du Chateau“, which is located in the beautiful Rochefort area.

This is a tourist region in the Belgian Ardennes with many camping sites, hotels and Bed and Breakfast accommodations. We have added some images to give you a first impression of the city of Grupont, which is located between several airports within 1 hour and 30 minutes (Brussels, Maastricht-Aachen or Luxembourg), thus providing easy access to the Championships at Grupont.

The Benelux Organizing Committee is a cooperation between several Dutch and Belgian airgun clubs, that shoot both FT and HFT.

The shooting facilities are top quality. Totalling 13 hectares, the property can also host other large events. Starting in 2018 we plan to host 2 Benelux Open FT and HFT Championships a year. We also submitted our candidacy for the European Field Target Championships in 2020.

The headquarters will be at "La Ferme du Chateau", where the Benelux organisation will be housed during the Championships. This means that there will always be someone of the Benelux organisation present at the Shooting Area to have both the Training Area and the Course Areas ready at the promised time.

Please find included a range overview and some images to give you a first impression of the Course Areas.

The area has some small hills and with the targets in the trees we will be able to provide an interesting yet difficult shooting course for all attending shooters. Fun and efforts guaranteed!
